DEVANSH SHARMA

Bengaluru, India | +91 8584000226 | devansh.work6@gmail.com | LinkedIn | Portfolio | GitHub

EDUCATION

Ramaiah Institute of Technology, Bengaluru, India **Expected Aug 2027**

B.E. in Computer Science (Cybersecurity) | Semester 6 SGPA: **8.57**

Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, Cloud Computing, Cryptography, Ethical Hacking, Network Security, Quantum Computing, DevOps, Generative AI

WORK EXPERIENCE

iOS Developer | *Atlas Medical Solutions Inc. (Remote)* **Oct 2025 – Present**

- Led iOS development of a **HIPAA-compliant medical scribe application** for US clients using **Swift, SwiftUI, UIKit, MVVM, Combine, and AVFoundation**, personally developing core features while **managing 10+ interns**.
- Implemented **speech-to-text transcription, real-time audio processing, REST API integration, URLSession, JSON decoding**, and **secure patient data storage** using Keychain and biometric authentication.
- Performed cross-version **iOS testing, XCTest unit testing, debugging, and performance optimization**, while managing Git workflows, code reviews, and application reliability.

Full-Stack Developer | *EMVOKE Technologies Pvt. Ltd., Delhi, India* **May 2025 – Oct 2025**

- Developed full-stack **medical SaaS** features using **Angular, React, TypeScript, and Node.js**, integrating REST APIs and backend services.
- Built **interactive dashboards**, integrated **AI-powered backend functionalities**, and optimized frontend-backend communication.
- Conducted code reviews, reviewed pull requests, and participated in daily stand-ups, ensuring code quality and seamless integration using **AWS, Git, and CI/CD**.

Information Security Intern | *Exide Energy Solutions Ltd., Bengaluru, India* **Nov 2024**

- Assisted in implementing **basic security controls** and monitored for **phishing attempts** and other potential incidents.
- Helped run employee workshops on **data protection, phishing awareness, and fraud prevention**.

PROJECTS

DevYatra – AI-Powered Temple Crowd Management Platform **Smart India Hackathon 2025**

- Designed a full-stack crowd management system for pilgrimage sites (Somnath, Dwarka, Ambaji, Pavagadh) using **Next.js/React** and **Flask**, with **YOLOv8/OpenCV** for real-time crowd detection, AI-based crowd prediction, and a **12+ language** multilingual guidance system.
- Built a **RAG-based multilingual chatbot** using **Pinecone** vector search and the **Gemma API**, with **Sarvam AI** for voice-to-text translation, plus IoT-based safety alerts for panic and medical emergencies.

GyaanGuru – AI-Powered Personalized Learning Path Generator **Smart India Hackathon 2025**

- Designed an AI system that builds personalized vocational learning roadmaps aligned with **NSQF** qualifications, using **Next.js, Express.js** REST APIs, and a **Flask**-based AI service calling the **Gemma API**, with a drag-and-drop roadmap builder and Notion-style workspace.
- Added AI-generated notes, 3D models (**Trellis**), and instructional videos (**Manim**), plus a multimodal AI mentor (**Sarvam AI**) for multilingual tutoring and labour-market-aligned recommendations, backed by **Supabase**.

ACHIEVEMENTS

- **Hackathons: Top 5 National Finalist**, BGSCET Hackathon 2025 (24-hour, **1000+ participants**, 50+ colleges); **Finalist**, Smart India Hackathon 2025; **Top 3**, CBC Hackathon (May 2025).
- **French Exchange Ambassador** (Poitiers, France, 2019): led STEM workshops and raised **$1,500+** as India's student representative. **Student Council:** directed **50+ events**, editorial board member, 3 Sports Day medals.
- Received admission/scholarship offers from **20+ universities**, including University of London, University of Michigan, Penn State, and Purdue.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C

Frontend: React, Angular, Next.js, Redux, React Native, HTML/CSS, Responsive Design

Backend: Node.js, Express.js, Django, Flask, Spring Boot, Spring MVC, REST/GraphQL APIs

Mobile: Swift, SwiftUI, Objective-C, Kotlin, Core Data, Combine, Realm, XCTest, Fastlane

Cloud & DevOps: AWS, Azure, Docker, Kubernetes, CI/CD, Git, Postman

Data & Security: MongoDB, MySQL, PostgreSQL, Firebase, LangChain, Pinecone, Cryptography, Ethical Hacking, Network Security

CERTIFICATIONS

- **Google Cloud Career Launchpad – Cybersecurity Track**, Google Cloud (2026) | **Security Operations Center in Practice**, IBM SkillsBuild (2026)
- **Security Analyst Training**, Exide Energy Solutions | **iOS Development Bootcamp** & **Web Development Bootcamp**, Udemy
