EDUCATION

Ramaiah Institute of Technology — Bengaluru, India

B.E. in Computer Science (Cybersecurity) | Semester 6 SGPA: 8.57 — Expected Aug 2027

Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, Cloud Computing, Cryptography, Ethical Hacking, Network Security

WORK EXPERIENCE

iOS Developer — *Oct 2025 – Present*

Atlas Medical Solutions Inc. — Bengaluru, India

- Build features for a patient-facing iOS app in **Swift** and **SwiftUI**, using MVVM architecture and Combine, with Core Data and Realm for local persistence.
- Work with REST and GraphQL APIs using async/await, and handle secure storage of patient data through **Keychain** and biometric authentication.
- Write **XCTest** unit tests for core flows and use Fastlane to manage build and release automation.

Full-Stack Developer — *May 2025 – Oct 2025*

EMVOKE Technologies Pvt. Ltd. — Delhi, India

- Built web application features using **React**, Angular, and **Node.js** with TypeScript, structured as microservices deployed on **AWS** (Lambda, RDS, DynamoDB).
- Set up CI/CD pipelines with AWS CodePipeline and infrastructure as code with **Terraform**; used Docker and Kubernetes for containerized deployments.
- Implemented authentication with **JWT** and AWS IAM following OWASP practices, added WebSocket support for real-time updates, and monitored services with Grafana.

Information Security Intern — *Nov 2024*

Exide Energy Solutions Ltd. — Bengaluru, India

- Assisted in implementing basic security controls and monitored for phishing attempts and other potential incidents.
- Helped run employee workshops on data protection, phishing awareness, and fraud prevention.

PROJECTS

DevYatra — AI-Powered Temple Crowd Management Platform | Smart India Hackathon 2025 (PS ID: SIH25165) | GitHub

- Designed a full-stack crowd management system for pilgrimage sites (Somnath, Dwarka, Ambaji, Pavagadh) using **Next.js/React** and **Flask**, with **YOLOv8**/**OpenCV** for real-time crowd detection, AI-based crowd prediction, and a 12+ language multilingual guidance system.
- Built a RAG-based multilingual chatbot using **Pinecone** vector search and the **Gemma API**, with **Sarvam AI** for voice-to-text translation, plus IoT-based safety alerts for panic and medical emergencies.

GyaanGuru — AI-Powered Personalized Learning Path Generator | Smart India Hackathon 2025 (PS ID: SIH25199) | GitHub

- Designed an AI system that builds personalized vocational learning roadmaps aligned with NSQF qualifications, using **Next.js**, **Express.js** REST APIs, and a **Flask**-based AI service calling the **Gemma API**, with a drag-and-drop roadmap builder and Notion-style workspace.
- Added AI-generated notes, 3D models (**Trellis**), and instructional videos (**Manim**), plus a multimodal AI mentor (**Sarvam AI**) for multilingual tutoring and labour-market-aligned recommendations, backed by **Supabase**.

ACHIEVEMENTS

- Hackathons: **Top 5 National Finalist**, BGSCET Hackathon 2025 (24-hour, **1000+ participants**, 50+ colleges); **Finalist**, Smart India Hackathon 2025; **Top 3**, CBC Hackathon (May 2025).
- French Exchange Ambassador (Poitiers, France, 2019): led STEM workshops and raised **$1,500+** as India's student representative; Student Council: directed **50+ events**, editorial board member, 3 Sports Day medals.
- Received admission/scholarship offers from **20+ universities**, including University of London, University of Michigan, Penn State, and Purdue.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, PHP, Go

Frontend: React, AngularJS, Next.js, Redux, React Native, HTML/CSS, Responsive Design

Backend: Node.js, Express.js, Django, Flask, Spring Boot, Spring MVC, Spring Data JPA, REST/GraphQL APIs

Mobile: Swift, SwiftUI, Objective-C, Core Data, Combine, Realm, XCTest, Fastlane

Cloud & DevOps: AWS, GCP, Azure, Docker, Kubernetes, Terraform, CI/CD, Git, Postman, Grafana

Data & Security: MongoDB, MySQL, PostgreSQL, Firebase, LangChain, Pinecone, Cryptography, Ethical Hacking, Network Security

CERTIFICATIONS

- **Google Cloud Career Launchpad — Cybersecurity Track**, Google Cloud (2026) | **Security Operations Center in Practice**, IBM SkillsBuild (2026)
- Security Analyst Training, Exide Energy Solutions Pvt. Ltd. | iOS Development Bootcamp & Web Development Bootcamp, Udemy
